

Project Design Phase-II
Functional Requirements

Team ID	PNT2022TMID35351
Project Name	Containment Zone Alerting Application
Maximum Marks	4 Marks

Functional Requirements:

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	User can register through Email id or current phone Number.
FR-2	User Confirmation	Confirmation can be done by verification code through Mail or OTP.
FR-3	Track the location	Trace the trespassers by using Google map API.
FR-4	Alert notification	By tracking their location using GPS system, notification or message will be send if the user enters the Containment zone.
FR-5	Affected areas are shown	Containment zones were marked and trespassers are Indicated by geofencing.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Performance	Most appropriate results can be achieved due to using the Geofencing and GPS.
NFR-2	Availability	The application uses the network to load the google Maps to retrieve containment zones. It is available for good range of network bandwidth.
NFR-3	Reliability	User can trust this application and travel safely.
NFR-4	Usability	User interface is very effective to use when compared with other.
NFR-5	Scalability	This application can be accessed from anyplace and Information about the zones are up to date.
NFR-6	Security	Data from the user will be secured properly.
